

Information Processing and Technology: The HSC Course Teacher CD-Rom Teacher CD-ROM (Cambridge Secondary IT)

Information Processing and Technology: The HSC Course Teacher CD-ROM is the perfect teacher support resource for Information Processing and Technology: The HSC Course. Features include answers to chapter exercises and section reviews in the textbook, revision material and practice exams for the Core Chapters and additional practical exercises, and some examples of working information systems. The inclusion of TestMaker software in the Information Processing and Technology: The HSC Course Teacher CD-ROM means that tests and worksheets can be created with just a few mouse clicks. The range of question formats and easy-to-use interface means the TestMaker function provides relief for busy teachers. All of the CD material can be made available over the school network or printed directly from the CD for individual use.
