

The Three Lives of Janet

Janet Foley has written a biography of her fascinating life. Divided into three chapters, she begins her first chapter by describing how she grew up on a Midwest farm during the Great Depression and Dust Bowl years. Her second chapter takes the reader through her marriage and raising children until her husband's death. The final chapter describes how she reinvented herself as a world traveler and business woman. This interesting story will resonate with readers of all ages but will mean the most to, as Janet puts it, the product of her DNA. Highly recommended!
