

Through the Eyes of a Belfast Child - Life. Personal Reflections. Poems.

Life is a journey. Often times and without choice, our actions and interactions within the environments in which we grow, live, work, and play, define our worldviews and shape who we are. Anyone who has faced traumatic events may look for an outlet to share their experiences in the hopes they are not alone in their struggles. In hindsight, however, the realization is that we are all human, and each and every one of us has a unique story to tell.
